

Kyoto-Lancaster Joint International Symposium on Psychological Science
New Directions of Memory Research

Programme

- 10:20 – 10:30 Opening Remark: Masuo Koyasu (Kyoto University, Japan)
- 10:30 – 11:00 Verbal control of action: A working memory approach
Satoru Saito (Kyoto University, Japan)
- 11:00 – 11:30 Feature binding and updating in visual short-term memory for objects
Jun Saiki (Kyoto University, Japan)
- 11:30 – 12:00 Individual differences in working memory capacity and the Go/No-Go task
Randall Engle (Georgia Institute of Technology, USA)
- 12:00 – 13:30 Lunch
- 13:30 – 14:00 The efficacy of a modified strategic use of information (SUE) technique for increasing cognitive load during investigative interviews with suspects.
Alex Sandham (Lancaster University, UK)
- 14:00 – 14:30 Eliciting accurate eyewitness information? Change temporal order versus free recall.
Coral Dando (Lancaster University, UK)
- 14:30 – 15:00 Why do recall interventions fail? Interactions between clustering and confabulation in witness memory
Tom Ormerod (Lancaster University, UK)
- 15:00 – 15:30 Coffee Break

- 15:00 – 16:00 Visual awareness without prefrontal consciousness
Naoyuki Osaka (Kyoto University, Japan)
- 16:00 – 16:30 Memory awareness in tufted capuchin monkeys (*Cebus apella*)
Kazuo Fujita (Kyoto University, Japan)
- 16:30 – 17:00 Are False Memories Adaptive?
Mark Howe (Lancaster University, UK)
- 17:00 – 17:10 Closing Remard: Tom Ormerod (Lancaster University, UK)
- 18:00 – Reception
